Single-In-Line Reed Relays

CHARACTERISTICS

- High resistance coils of up to 2000 Ω at 12 VDC
- · Line sense relay with pull-in current = 15 mA
- Breakdown voltage coil / contact of up to 4.25 kVDC

DESCRIPTION

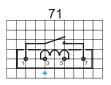

Single-In-Line Reed Relays reduce the required space to a minimum. The SIL series is available as both voltage and current driven (line sense) Reed Relays. Requiring only half the PCB area of the DIP or DIL series, the SIL relays offer all the advantages of Reed Technology. The SIL series is approved according to EN60950 and offers sufficient distance in air and creepage paths.

FEATURES

- · Magnetic shield available
- · High resistance version
- · Other coil resistances available

PIN OUT

"+" by option with diode

DIMENSIONS

All dimensions in mm [inches]

ORDER INFORMATION

| Series | Nominal Voltage | Contact Form | Switch Model | Pin Out | Options | High Resistance Version |
|---------|--------------------|-----------------|-----------------|---------|------------|-------------------------------|
| SIL | XX - | 1 X | XX - | 46 | х | xx |
| Options | 05, 12, 15, 24* | A** | 72, 75, 84 | | L, M, D, Q | |
| Options | 05, 12 | 1A | 72 | | L, M | HR |

^{*} Other coil resistance available. Please consult factory.

Part Number Example

SIL12 - 1A46 - 46L

12 is the nominal voltage

1A is the contact form

46 is the switch model

L is the option

OPTIONS

L = No option
M = With magn

= With magnetic shield

= With diode and no magnetic shield

Q = With diode and with magnetic shield

D

^{**} Contact B available.

Single-In-Line Reed Relays

RELAY DATA
