

Model zt-s681

| | |
|----------------------|---|
| Category: | laser head |
| Size: | φ 6.7 * 10.5mm |
| Working life: | more than 3000 hours |
| Spot mode: | point-like spot, continuous output |
| Power: | ≤5mW |
| Voltage: | 3-6v (according to customer requirements) |
| Current: | <40mA |
| Working temperature: | -36 °C ~ + 65 °C |
| Output Wavelength: | 650 nm |
| Spot size: | 10 meters at the spot for φ 10mm ~ φ 15mm |
| Band range: | Visible |
| Operation mode: | Continuous |
| Incentives: | light pump |
| Material: | Plastic |

Uses: Can be used in flashlights, laser gyro, laser pointer, consumer gifts, small gifts.
